

# TEAR ME OFF AND TOUCH YOUR TOES

## FIND THE IDEAL FIT

1. Place your child's heel against the edge of the book spine.
2. Mark the longest part of the foot on the paper. Repeat procedure with the other foot.
3. Measure the length of each mark and match it with the size chart. Let the longest foot decide the shoe size.

## HAVE YOU GROWN?

Is there a difference in your child's foot size? Head down to ECCO and get their foot measured accurately to make sure your children are in the right shoe size.
